

PRESS RELEASE

Track™ v6.0 Enterprise in Brazilian Portuguese Released

Houston, Texas — December 2008

Management Controls, Inc. has announced the release of Track™ v6.0 Enterprise in the Brazilian Portuguese language.

Brazilian Portuguese is the first of many languages that will be incorporated into Track™ v6.0 Enterprise, for a growing list of refining, chemical, and mining companies in Brazil. Management Controls, Inc. is dedicated to adding languages as user demand dictates. German, Mandarin Chinese, Spanish, and French are planned for the near future.

The ability to manage multiple currencies and multiple languages in Track™ v6.0 Enterprise is a major benefit for clients with international operations. Track™ v6.0 Enterprise is the market-leading project cost management product and the only contractor management system available for global integration.

Bob Harrell, President and CEO of Management Controls, said “We are continuing to focus on the global needs of our clients. Management Controls, Inc. is committed to delivering the highest-quality products and services to our growing customer base around the world.”

About Management Controls, Inc. – Track™ software, created by Management Controls, Inc., automates the business processes of service-based contracts – from project time-keeping through invoicing – and delivers actionable information that clients and contractors require to complete projects on-time and on-budget. Track software accurately validates, calculates and compiles the hours and costs of contracted work, delivering project status on a shift basis. Using this real-time information, owners and contractors work collaboratively to manage projects more effectively – for their mutual and individual benefit.
